Customers

Success Stories

Project Management Office (PMO) Implementation:

Supported with standing up a PMO Office for a State-wide program that provided primary care transformation support with a 95% implementation efficiency rate.

Enterprise Data, Intelligence & Analytics:

Extracted Compliance data from an EMR application and transforming it into actionable insights for frontline staff and decision makers using SQL, Excel, and Tableau to build an analytics solution. To improve data analytics and reporting.. Our programs combined technical fluency with practical AI implementation training.

Revenue Cycle Management:

Implemented a Revenue Cycle Management (RCM) program to optimize the financial performance of a Health Services by streamlining the entire revenue cycle process from patient registration to final payment, ensuring accurate billing, timely claims submission, and effective follow-up on denials.

Workforce Development & Training:

Designed and implemented training for Practice Coaches, Administrative staff and Clinical staff with a recurring >35% knowledge gain with 24 hours.

Staffing:

Provided clinical and admin staff to support patient care delivery and office administration work. Successfully maintained staffing requirements throughout project.
